- After warming-up, the players change their undershirts and T-shirts.
- Your own warm-up shoes, bag, cap/viser.
- Any cleats.

Suetake (RP) and Gomi (RP): rookies

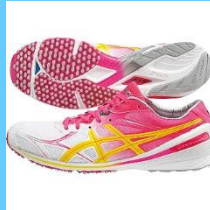

Ohta (LF): Leggings

Shoes

The company is providing a pair of cleats (17) and a pair of turf shoes (18).

And you will need to bring:

- Warming-up shoes
- Gym shoes: in Japan, the gyms require you have a pair of inside shoes. So you should use a pair of shoes only to practice at the gym, and we change shoes at the gym's entrance. They say should be a new pair, and not shoes that you used outside and washed, but they won't repair.
- Hamanasu's shoes (next slide)
- Bus travel's shoes
- If you think necessary, a pair of cleats for practice and practice games.

Hamanasu

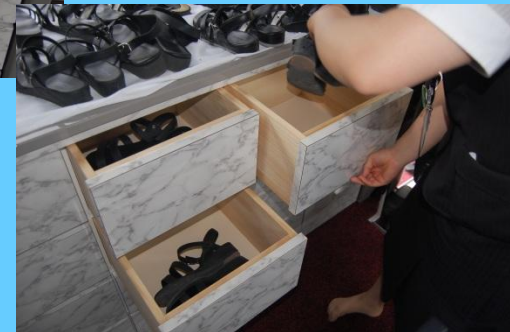

- “Hamanasu” is the hospital’s restaurant (but is not located inside the hospital).
- The players have dinner at Hamanasu everyday, right after practice is over.
- We can’t get inside the restaurant on dirty practice clothes so, when field practice is over, the players change clothes inside the team’s bus, while going back to the dorms.
- All the players wear “crocs” (with socks), but can be any shoes or sandals (with socks) without sand.
 - * Japanese etiquette: during meals we can’t eat without socks.
- We also can’t have meals wearing clothes that we usually wear during field practice (even if the clothes are washed and clean).

Bus

- The team always travel by bus.
- Inside the bus, we take off our shoes.
- On long trips, when we stop to eat or go to the bathroom we usually wear the crocs (the same we wear on Hamanasu), once the warming-up shoes are dirty.
- But you can carry any shoes on long trips by bus.

Place to put our shoes on

The End!
